

World Class Furniture Since 1983

Usha Shriram is a pioneer in the field of branded wood furniture for homes in India.

Way back in 1983, when the Indian market was totally oblivious of the concept of readymade branded solid wood furniture, Usha Shriram pioneered this concept by offering standardized machine-made furniture. We were also the first to introduce the concept of after sales service and warranty, a concept never before heard of in the domain of furniture sales.

Coming from the house of Usha Shriram, a trusted name in the area of household products for many decades, we have been delighting the customer with our exclusive designer furniture range, and have been committed to ensuring quality and providing dependable service.
